MECHATRONICS LLP

Kind attention
**Textile
Industrialists**

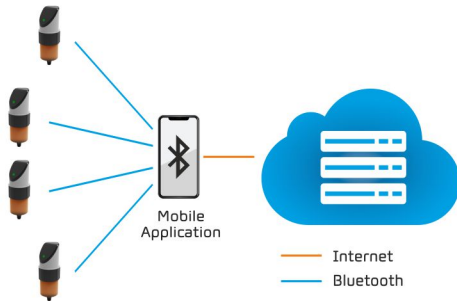

offering you
a smart solution
to protect your
machines bearings from

**dust
moisture
&
premature
failures**

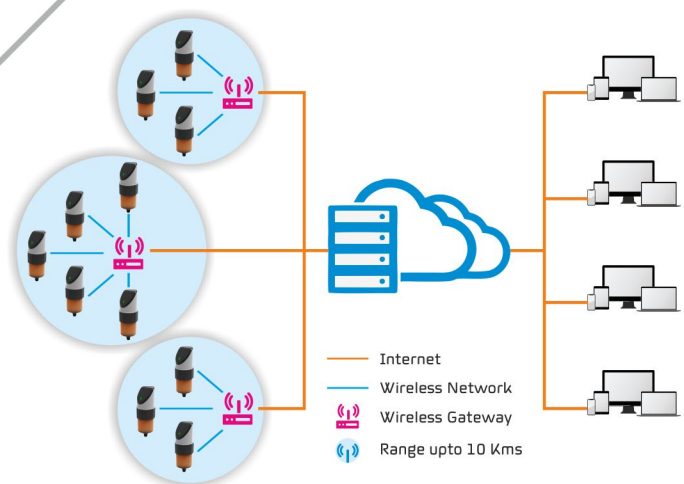

SIPOALs consists of self-powered electromechanical controller to drive the lubricant cartridges which delivers the precise volume of lubricant to the lubrication point of machinery automatically at frequent intervals of time programmed by the user.

SIPOALs are available in two variants such as

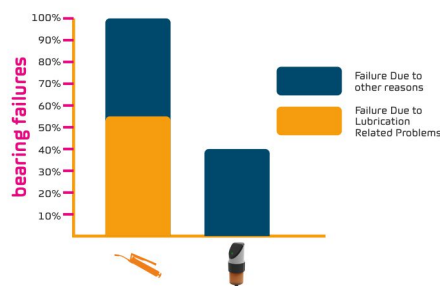

SIPOAL-B
enabled with bluetooth

SIPOAL-L
enabled with wireless network

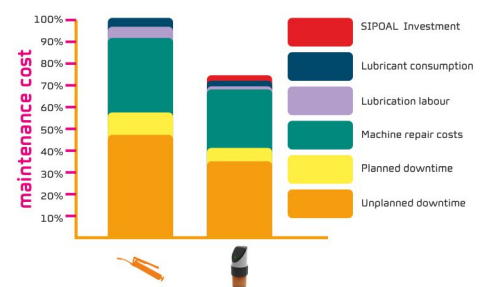

ADVANTAGES

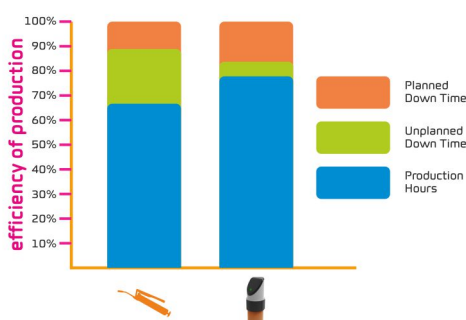

**upto 55% prevention
of bearing failures**

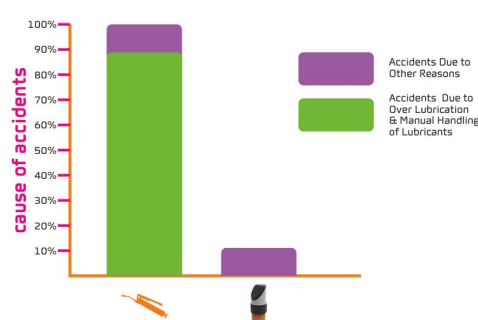

**upto 25% reduction
in maintenance cost**

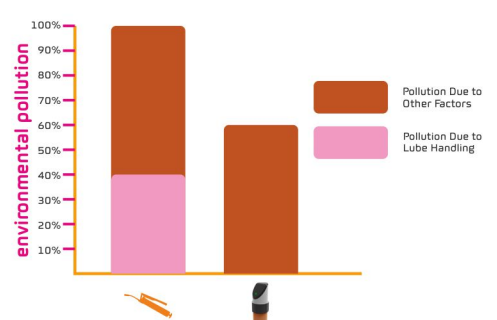

**upto 15% improvement
of production**

**upto 90% reduced
risk of accidents**

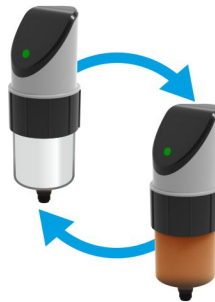

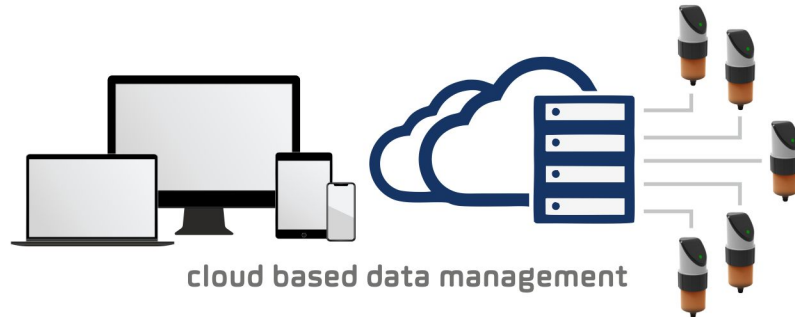

**upto 40% improved
environment**

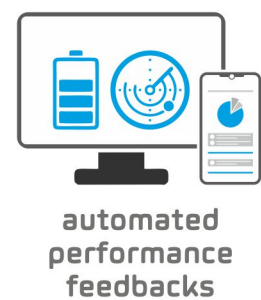

FEATURES

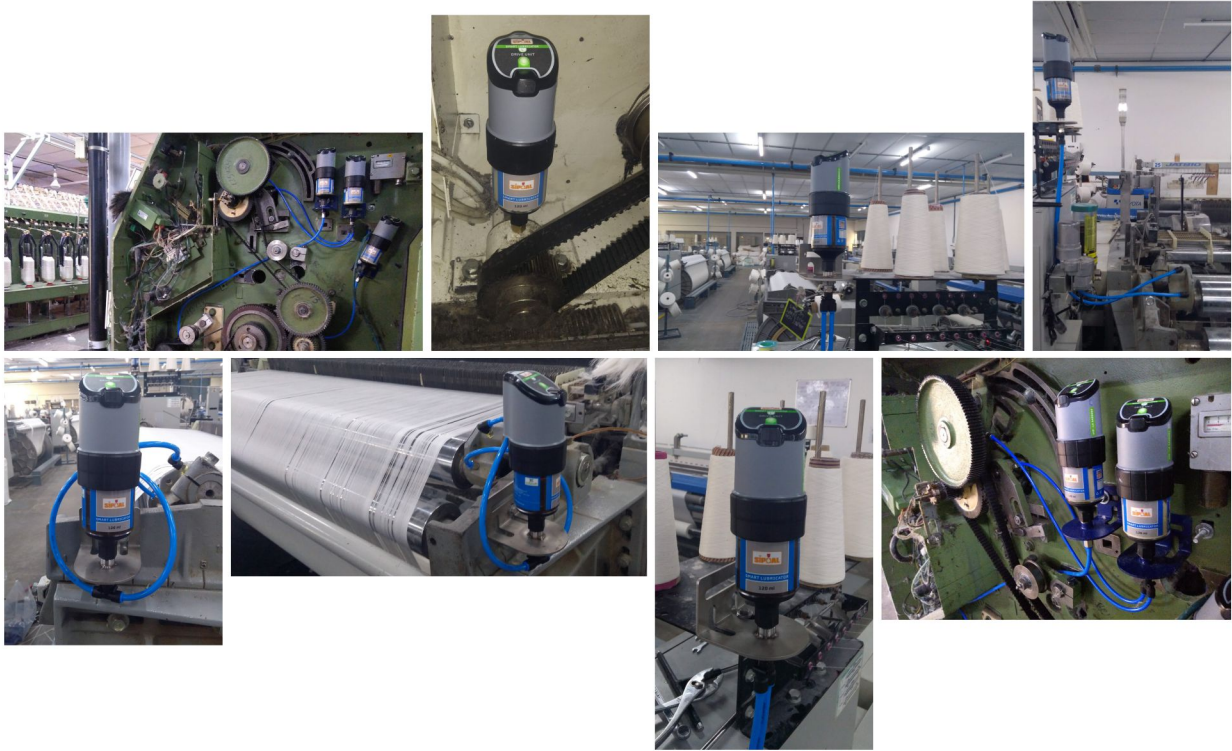

SIPOAL-B/L

SIPOAL-L
